Passenger Traffic Overview

Total passenger traffic in March 2019 increased 2.6% YoY, primarily reflecting growth of 6.6% in Argentina and 7.3% in Ecuador, partially offset by declines across most other countries of operations. The Company faced more difficult comps in March as the Easter holidays this year fell in April, while in 2018 they fell in March.

In Argentina, total passenger traffic increased 6.6% YoY, mainly driven by 14.8% growth in domestic passengers benefiting from the launch of several new routes and the addition of new airlines during 2018, together with a mix-shift to domestic from international travel by local passengers. This was partially offset by a decline of 7.4% in international passengers, reflecting continued challenging macro conditions. During March, Flybondi added a new domestic route connecting Iguazú with Rosario Airport, further increasing connectivity in the country, while Córdoba and Mendoza airports also reported a record-high traffic volume. In addition, during April low cost airline JetSmart begun domestic operations. Also that month the remaining regional flights were migrated from Aeroparque to Ezeiza Airport, with the exception of flights to/from Montevideo and Punta del Este.

In Italy, passenger traffic declined 2.2%, reflecting more difficult comps as last year traffic in March benefited from the Easter school holidays, which are falling in April this year.

In Brazil, passenger traffic declined 3.2%, impacted by a decline of approximately 20% in seat supply at Avianca Brasil, that also announced cancellation of certain routes at several Brazilian airports starting April 2019, and, to a lesser extent, a reduction in less profitable routes and frequencies by LATAM Airlines as it seeks to optimize operations at Brasilia Airport.

In Ecuador, passenger traffic increased 7.3%, with international passenger traffic at Guayaquil Airport up 14.2%, mainly attributed to the continued good performance of the Spirit Airlines flight to Fort Lauderdale, the addition of 3 weekly flights by COPA Airlines, and the start of operations of Jet Blue, that opened a route to Fort Lauderdale with seven weekly flights.

Passenger traffic in Uruguay declined 10.3% YoY mainly impacted by macro conditions experienced in Argentina and more difficult comps from the Easter holidays effect as discussed above, together with the cancellation of Avianca’s daily route to Bogotá, Colombia.

Cargo Volume and Aircraft Movements

Cargo volume increased 4.4% in March 2019, mainly as a result a 69.4% increase in Brazil, offset by a decline of 9.3% in Argentina, related to the continued challenging macroeconomic conditions.

Aircraft movements decreased 3.2% in March 2019, mainly as a result of a 13.3% decline in Brazil.

- (1) Starting May 3, 2018, 50% of international air traffic in Aeroparque Airport was reassigned to Ezeiza Airport, and the remaining 50% will be reassigned on April 1st, 2019. These measures are part of resolution 183/2018 issued by the "Administración Nacional De Aviación Civil" (ANAC) which intends to optimize the management and infrastructure of Aeroparque Airport, taking into account the growing domestic aeronautical market and the seasonality of regional operations in Argentina. Aircrafts which travel to or from Uruguay are excluded from this resolution.
- (2) International and Transit traffic figures at Brasilia Airport are not comparable to 2018 due to a change in methodology starting in June 2018, following ANAC regulations.

- (1) Starting May 3, 2018, 50% of international air traffic in Aeroparque Airport was reassigned to Ezeiza Airport, and the remaining 50% will be reassigned on April 1st, 2019. These measures are part of resolution 183/2018 issued by the "Administración Nacional De Aviación Civil" (ANAC) which intends to optimize the management and infrastructure of Aeroparque Airport, taking into account the growing domestic aeronautical market and the seasonality of regional operations in Argentina. Aircrafts which travel to or from Uruguay are excluded from this resolution.
- (2) International and Transit traffic figures at Brasilia Airport are not comparable to 2018 due to a change in methodology starting in June 2018, following ANAC regulations.
