Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F.

Form 20-F Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1):

Note: Regulation S-T Rule 101(b)(1) only permits the submission in paper of a Form 6-K if submitted solely to provide an attached annual report to security holders.

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7):

Note: Regulation S-T Rule 101(b)(7) only permits the submission in paper of a Form 6-K if submitted to furnish a report or other document that the registrant foreign private issuer must furnish and make public under the laws of the jurisdiction in which the registrant is incorporated, domiciled or legally organized (the registrant's "home country"), or under the rules of the home country exchange on which the registrant's securities are traded, as long as the report or other document is not a press release, is not required to be and has not been distributed to the registrant's security holders, and, if discussing a material event, has already been the subject of a Form 6-K submission or other Commission filing on EDGAR.

INFORMATION CONTAINED IN THIS FORM 6-K REPORT

Our subsidiary in Argentina, Aeropuertos Argentina 2000 S.A. (“AA2000”), files quarterly financial statements (both on a consolidated and individual basis) and other periodic reports and notices in Spanish with the Comisión Nacional de Valores (“CNV”) in Argentina because certain of its debt securities are subject to the public offering regime in Argentina. All such reports and notices are available at the website of the CNV (<http://www.cnv.gob.ar>). AA2000 also files quarterly consolidated and individual financial statements in English to the Luxembourg Stock Exchange on which these debt securities are listed and to the trustee under the indenture governing these debt securities. We are furnishing the information under cover of this Form 6-K to make this information available to the holders of our common shares.

This Form 6-K contains a free translation into English of the stand-alone condensed consolidated interim financial statements for the three months ended March 31, 2018 of AA2000 (the “AA2000 Consolidated Financial Statements”) as well as the stand-alone condensed individual interim financial statements for the three months ended March 31, 2018 of AA2000 (the “AA2000 Individual Financial Statements” and jointly with the AA2000 Consolidated Financial Statements, the “AA2000 Financial Statements”) that have been made publicly available in Argentina in Spanish. The AA2000 Financial Statements, which have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”), are presented in Argentine pesos and were audited in accordance with International Standards on Auditing as approved by the International Auditing and Assurance Standards Board (IAASB).

There are certain differences between the AA2000 Consolidated Financial Statements and the consolidating information for the Argentine segment included in the consolidated financial statements of Corporación América Airports S.A. (“CAAP”), such as AA2000’s own transition date to IFRS and its reporting currency, among others.

As a result, the AA2000 Financial Statements contained in this Form 6-K are for informational purposes only and not comparable to the financial information included in the Argentine segment in the consolidated financial statements of CAAP to be included in our quarter report for the three months ended March 31, 2018 and that will consolidate the results of operations and financial condition of all our subsidiaries for such period. Furthermore, neither the AA2000 Consolidated Financial Statements nor the AA2000 Individual Financial Statements should be construed as any indication of how our Argentina segment information will be presented in the consolidated financial statements of CAAP.

Notes to the Consolidated Financial Statements

At March 31, 2018 presented in comparative format

NOTE 1 – COMPANY ACTIVITIES

Aeropuertos Argentina 2000 S.A. (“AA2000” or the “Company”) was incorporated in the Autonomous City of Buenos Aires on January 28, 1998, after the consortium of companies won the national and international bid for the concession rights for the use, management and operation of the “A” Group of the Argentine National Airport System. “A” Group includes 33 airports, which operate in Argentina (the “Concession”)

The Concession was granted pursuant to the concession agreement the Company entered into with the Argentine National Government on February 9, 1998, as subsequently amended and supplemented by the memorandum of agreement we entered into with the Argentine National Government on April 3, 2007 (the “Memorandum of Agreement”). The Company refer to the concession agreement as amended and supplemented by the Memorandum of Agreement as the “Concession Agreement”.

The Concession is for an initial period of 30 years through February 13, 2028. The Company may extend the term of the Concession for an additional period of up to 10 years. The Company has made a formal request to the National Airports Regulatory Organization (*Organismo Regulador Del Sistema Nacional de Aeropuertos*) (the “ORSNA”) to extend the term of the Concession for the additional 10-year period ending February 13, 2038. The Company can provide no assurance that the Argentine National Government will grant our request or on what conditions.

In addition, under the terms of the Concession Agreement, the Argentine National Government has the right to buyout our Concession as of February 13, 2018, and if such right is exercised, it is required to pay the Company a compensation.

As from July 24, 2012 The Company has become responsible for the management of the operation of Termas de Rio Hondo airport. On March 21, 2013, the National Executive Branch through Decree N° 303/2013, ratified the incorporation of the airport to the National Airport System, its inclusion into the “A” Group at December 31, 2017 is still pending.

Likewise and in order to be able to continue with the policies related to the expansion of the aviation market, the National State issued Decree No. 1092/17 on December 22, 2017 by which it incorporated the Palomar Airport, located in the Province of Buenos Aires. Aires, to the National Airport System.

In order to incorporate the said Airport into "Group A", on December 27, 2017 the National Government issued Decree No. 1107/17.

AA2000 owns 98.63% of the capital stock of Cargo y Logística S.A., holder of 98.42% of the shares of Villalonga Furlong S.A. Villalonga Furlong S.A. is the holder of Class "B" shares of Empresa de Cargas Aéreas del Atlántico Sud S.A., under liquidation, representing 45% of its capital stock. The remaining 55% of the capital stock, (the Class "A" shares) are owned by the Argentine National Government - Ministry of Defense. Empresa de Cargas Aéreas del Atlántico Sud S.A. (which, as of the date of these consolidated financial statements, is under liquid proceedings as a result of the application of the provisions of Section 94 subsection 2 of Commercial Law 19550) was the concessionaire of the exploitation and provision of international air cargo storage, stowage and warehouse services until June 30, 2009. As from that date the services in charge of Empresa de Cargas Aéreas del Atlántico Sud S.A. are performed by AA2000 in accordance with the Bidding Terms and Conditions of the AA2000 concession agreement.

The Company holds 50% of the capital stock and votes of Paoletti América S.A. Pursuant to shareholder agreements, AA2000 is in charge of the administration of Paoletti America S.A, and also appoints the Chairman of the Board of Directors, who, in accordance with the corporate by-laws, has a double vote in case of a tie voting. Therefore, the Company has consolidated the assets, liabilities and results of Paoletti América S.A.

In addition, the Company holds 70% of the capital and votes of Texelrio S.A. whose corporate purpose is, among others, to develop, operate and manage all types of services related to park and airport maintenance.

NOTE 3 – ACCOUNTING POLICIES

The Condensed Consolidated Interim Financial Statements are presented in Argentine Pesos, except when specifically indicates otherwise. The Board of Directors of the Company approved these statements on May 8, 2018.

The National Security Commission (CNV) through Technical Resolutions N° 562/09 and 576/10 has established the application of Technical Resolutions N° 26 and 29 of the Argentine Federation of Professional Council in Economic Sciences which adopts the application of IFRS (International Financial Reporting Standards) issued by the IASB (International Accounting Standards Board), for those entities under the public offering regime Law N° 17.811, whether due to capital stock or corporate bonds or because they have requested authorization to list for trading on stock exchanges.

Application of those standards is mandatory for the Company as from the fiscal year beginning on January 1, 2012. Therefore, the transition date, as established in the IFRS 1 “First Time Adoption of the IFRS” was January 1, 2011.

The Consolidated Financial Statements of AA2000 have been prepared in accordance with IFRS and IFRIC (International Financial Reporting Interpretations Committee).

These accounting policies have been consistently applied to all the periods presented. Unless otherwise stated.

The current Condensed Consolidated Interim Financial Statements have not been audited and should be read together with the Consolidated Financial Statements of the Company as of December 31, 2017. The results of the three-month periods ended March 31, 2018 and 2017 do not necessarily reflect the proportion of the results of the Company for the full year.

1) Comparative Information

The figures at March 31, 2018 and December 31, 2017 included in these condensed consolidated interim financial statements for comparative purposes, was extracted from the Financial Statements of AA2000 as of that date, and timely approved by the Company Board of Directors and Shareholders.

NOTE 3 – ACCOUNTING POLICIES (Contd.)

1) Comparative Information (Contd.)

Certain figures in the financial statements for the year ended March 31, 2017 have been reclassified for the purpose of comparative presentation, in relation to the revenues from the Strengthening Trust (\$74,808,468), included in the revenue item which have been reclassified to the item Other Net Income and Expenses in the Consolidated Statement of Comprehensive Income. This reclassification does not affect the figures of the balance sheet.

In turn, certain transactions have been reclassified in the Cash Flow Statement that were classified in 2017 within the operating activities (Release of restricted cash and certain interests) that were reclassified to financing activities.

2) Accounting Policies

The accounting policies applied to these Condensed Consolidated Interim Financial Statements are consistent with the Consolidated Financial Statements ended at December 31, 2017.

3) Subsidiaries

Subsidiaries are all the entities where the Company has the power to control operating and financial policies, generally with a controlling share over 50%. At the time of determining if the Company controls an entity, the existence and the impact of potential voting rights that could be exercised or converted are taken into account. The subsidiaries are consolidated as from the date the control is transferred and excluded from the date such control ceases. The Company controls an entity when the group is exposed to, or has the rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The subsidiaries are consolidated as from the date control is transferred to the Company. They are deconsolidated from the date that control ceases. (See Note 2).

3) Segment Information

The Company is managed as a single unit, considering all airports as a whole. It does not evaluate the performance of the airports on a standalone basis. Therefore, for the purposes of segment information, there is only one business segment.

4) Segment Information (Contd.)

The Argentine National Government granted to the Company the airports's concession of the Group "A" of the National Airports System under the basis of "cross-subsidies": i.e., the income and funds generated by some of the airports should subsidize the liabilities and investments of the remaining airports, in order for all airports to be compliant with international standards as explained below.

All airports must comply with measures of operative efficiency that are independent from the revenues and funds they generate. All works performed must follow international standards established by the respective agencies (IATA, OACI, etc.).

Revenues of AA2000 comprised non-aeronautical revenues and aeronautical revenues; the latter being the tariffs determined by the ORSNA and regulated on the basis of the review of the Financial Projection of Income and Expenses in order to verify and preserve the "equilibrium" of the variables on which it was originally based.

The investment decisions are assessed and made with the ORSNA based on the master plans of the airports considering the needs of each airport based on expected passenger flow and air traffic, in the framework of the standards previously mentioned.

5) Estimates

The preparation of financial statements in accordance with IFRS requires the use of estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies.

In the preparation of these Consolidated Financial Statements, the significant areas of judgement by management in the application of the Group's accounting policies and the main areas of assumptions and estimates are consistent with those applied in the Consolidated Financial Statements for the year ended December 31, 2017.

6) Foreign currency translation

Functional and presentation currency

Items included in the financial statements of each of the group's entities are measured using the corresponding functional currency i.e the currency of the primary economic environment in which the entity operates. The functional currency of all group entities is the Argentine peso, which is also the presentation currency of the consolidated financial statements.

The Group has evaluated and concluded that at the date of the financial statements the conditions established in the IAS 29 "Financial Reporting for Hyperinflationary Economies" are unmet in order to consider Argentina as a hyperinflationary economy. At the end of the reported period, considering the Argentine peso does not gather the characteristics to be considered as a currency from a hyperinflationary economy according to the guidelines established in the Standard and the government expectations towards the reduction of the inflation level, the current condensed financial statements have not been re expressed in constant currency.

The figures included in the financial statements corresponding to the different associated entities of the Group were measured using its functional currency, that is, the currency of the primary economic environment in which the Company operates. The functional currency of all Group companies is the Argentine peso, which is coincident with the presentation currency of the financial statements.

These consolidated financial statements have been prepared under the historical cost convention.

Transactions and balances

Transactions in foreign currency are translated into the functional currency using the exchange rates prevailing at the transaction dates (or valuation where items are re-measured).

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end of the assets and liabilities denominated in foreign currency are recognized in the statement of comprehensive income.

Transactions and balances (contd.)

Foreign exchange gains and losses are shown in “Finance Income” and/or “Finance Cost” of the statement of income.

Exchange rates used are the following: buying rate for monetary assets and selling rate for monetary liabilities, applicable at year-end according to Banco Nación, and at the foreign currency exchange rate applicable at the transaction date.

7) Contingencies

The Group has contingent liabilities for litigations related to the ordinary course of business. No significant liability is expected to arise from contingent liabilities different from the reserved ones.

8) Changes in accounting policies

a) New standards and modifications adopted by the Company

The following standards and amendments have been adopted by the Company for the first time for the three-month period ended March 31, 2018:

IFRS 9, "Financial Instruments"

The Group adopted IFRS 9 issued in July 2014, which resulted in changes in accounting policies and adjustments to the figures recognized in the Consolidated Financial Statements for the year ended December 31, 2017.

This standard replaces the previously issued versions and establishes new requirements for hedge accounting and a new impairment model for financial assets, applicable to annual periods beginning on or after January 1, 2018

The new impairment model requires the recognition of provisions for impairment based on the expected credit losses, instead of credit losses incurred under IAS 39.

The accounting policies were modified to comply with IFRS 9 issued by the IASB in July 2014.

8) Changes in accounting policies (Contd.)

IFRS 9 replaces the provisions of IAS 39 that relate to the recognition, classification and measurement of financial assets and financial liabilities; cancellations in financial instrument accounts; impairment of financial assets and hedge accounting. IFRS 9 also significantly modifies other standards related to financial instruments such as IFRS 7 Financial Instruments: Disclosures.

As permitted by the transitional provisions of IFRS 9, the Group has chosen not to change the comparative figures.

The total impact on the Group's retained earnings due to the classification and measurement of financial instruments as of January 1, 2018 is as follows:

Retained earnings as of December 31, 2018 - IAS 39	2.684.484.995
Decrease in the provision for bad debts, net	54.054.111
Retained earnings as of January 1, 2018 - IFRS 9	2.738.539.106

- IFRS 15 "Revenue from contracts with customers"

Management evaluated the effects of the application of the new standard and has not identified that the application of IFRS 15 may result in the identification of separate performance obligations in relation to permit holder contracts that could affect the timing of recognition of future income.

There were no other additional changes in the accounting policies of the Company based on the effective application standards as of January 1, 2018 described above.

b) New standards and amendments issued, but that do not result in effective application as of March 31, 2018 and have not been adopted by the Company

8) Changes in accounting policies (Contd.)

IFRS 16 “Leases”

In January 2016, the IASB issued IFRS 16 "Leases", which establishes new principles for the recognition, measurement, presentation and presentation of lease contracts, highlighting the elimination of the operational and financial classification established by IAS 17 and the adoption, in its replacement of a treatment similar to that provided to financiers under said rule, for all lease agreements.

These contracts must be disclosed as leased assets (assets with a right to use) or within fixed assets at the present value of the lease payments. If the Company makes periodic payments, it must additionally recognize a financial liability that represents the obligation to make future payments for the lease. IFRS 16 does not require the lessee to recognize assets and liabilities in the case of short-term leases or leases of low-value assets. The application of these new requirements will result in an increase in lease assets and financial liabilities recognized in this type of transaction. This standard is applicable to annual periods beginning on or after January 1, 2019, allowing early application if IFRS 15 is applied.

The Company has no intention to adopt this standard in advance.

Following the end of the current year, on February 6, 2017, the Company issued negotiable obligations for US\$400.000.000 with maturity on February 1, 2027, with an interest rate of 6,875% and an issue price of 99,888% par value. Payment of principal will have a quarterly amortization in 32 quarters, identical and consecutive, payable from May 1, 2019.

These negotiable obligations are guaranteed by a Trust under the Argentine Law, by which the Company has transferred and assigned use fees of international and regional airports and the Concession Indemnification Rights. This guarantee has been approved by the ORSNA on January 17, 2017, through Resolution N° 1/2017, that resolved to “*authorize the Concession (...) a collateral assignment of up to US\$ 400.000.000 (...)*”.

NOTE 6 – BORROWINGS (Contd.)

According to the Offering Memorandum of Negotiable Obligations, dated January 19, 2017 and later modified on January 23, 2017 the Company will use the proceeds of the offering notes in compliance with Article 36 of the Negotiable Obligations Law to (i) refinance the liabilities of the Company including (a) the total payment of negotiable obligations issued on December 22, 2010; and (b) negotiable obligations Class “A” and Class “C”, issued by the Company in Argentina on April 21, 2010, plus accrued and unpaid interest to the date of redemption and the applicable prepayment premiums as long as they have not been redeemed before issue date and maturity with the Company’s funds and (ii) the remainder will be applied to finance infrastructure works in the airports of Group “A” of the Company. On January 23, 2017, the negotiable obligations issued in April 2010 were redeemed in full with the Company’s own funds, so the amount equivalent to the mentioned redemption will be aimed at infrastructure works in the airports of the Company belonging to Group “A” of the National System of Airports.

On March 13, 2017 it made an early and whole redemption of the remaining value of negotiable obligations issued in December 2010 for the amount of principal of USD 157,500,000.

On December 31, 2016 the item Cash and Cash Equivalents of the statements of Financial Position included \$ 490,566,044 to guarantee the payment of negotiable obligations valid at that date and early redeemed during the year.

On March 31, 2018, the reasonable value of negotiable obligations issued in February 2017 is of \$7,949,515,999. Such method of valuation is classified according to NIIF 13 as hierarchy of reasonable value Level 2 (quotation prices (not adjusted) in active markets for identical assets or liabilities).

NOTE 7 – BALANCES AND TRANSACTIONS WITH RELATED PARTIES (Contd.)

Furthermore, short-term compensation to key management was \$11,554,503 and \$12,140,452 for the three month periods ended March 31, 2018 and 2017 respectively.

In connection with foreign exchange transactions related to the technical and administrative assistance agreements with Corporación América Sudamericana and Ogden Corporation, on November 23, 2012 The Company was notified of a foreign exchange summon initiated by the Banco Central de la República Argentina (Central Bank of the República Argentina or BCRA) regarding compliance with the existing legislation. On February 4, 2013, AA2000 presented defense procedures to the BCRA rejecting the allegations of such entity. In July 2016, sentence was passed favorable to the Company, non-appealable at the time of presentation of these financial statements.

In June 2016, the Company received a determination from the Federal Administration of Public Revenue (AFIP) was objecting the abovementioned items corresponding to the fiscal years 2009 to 2012 resulting in a claim for unpaid income tax based on considering those foreign exchange transactions as undocumented payments. On August 3, 2016, the Company appealed the mentioned determinations to the Argentine Tax Court.

Although the Company considers it has solid arguments to demonstrate the authenticity of the management and administrative services provided by Corporación América Sudamericana S.A., it decided to enter the Extraordinary Tax Law to regularize tax obligations established by Law N° 27.260. According to the Law, benefits of adhesion consist in the suspension of ongoing tax actions, extinction of the criminal tax action, remission of fines and other penalties non executable at the time of adhesion and reduction of interest. The corresponding debt for this item is registered in commercial accounts payable and others, current and non-current.

Corporación America S.A. is the direct owner of 45.90% of the common shares of the Company, and an indirect owner through Corporación America Sudamericana S.A of 29.75% of the common shares of the Company, therefore is the immediate controlling entity of the Company.

Presentation base

The information contained in this Summary has been prepared in accordance with Resolution No. 368/01 of the National Securities Commission ("CNV") and should be read in conjunction with the Condensed Consolidated Interim Financial Statements as of March 31, 2018 presented in comparative form and the Consolidated Financial Statements as of December 31, 2017 presented in comparative form. Prepared in accordance with IFRS standards.

1. General considerations

International Financial Reporting Standards (IFRS)

The National Securities Commission ("CNV"), through General Resolutions No. 562/09 and 576/10, has established the application of Technical Resolutions No. 26 and 29 of the Argentine Federation of Professional Councils of Economic Sciences, which they adopt IFRS (IFRS), issued by the International Accounting Standards Board (IASB), for entities included in the public offering regime of Law No. 17,811, either for their capital or for their negotiable obligations, or who have requested authorization to be included in the aforementioned regime.

The application of such standards is mandatory for the Company as of the fiscal year beginning on January 1, 2012.

- Seasonality

The Company's revenues are highly influenced by the seasonality of air traffic in Argentina. The traffic of planes and passengers and, consequently, the income of the Company are higher during the summer and winter months (December - February and July - August), basically because they are holiday periods.

The main works carried out during the quarter ended on March 31, 2018 are detailed below:

Perspectives for 2018

In the first quarter of this fiscal year, the company's passenger traffic had a very good evolution reaching 9.9 million, of which 5.9 million were domestic passengers and 4 million were international passengers, with growths of 12.7% in domestic and 7.8% in international compared to the previous year. In total, passenger traffic grew 11% compared to the first quarter of the previous year.

This evolution is part of the plans of the National Government to encourage increased passenger traffic allowing significant improvements in air connectivity across the country, consolidating the recovery of foreign visitors, which reached record levels in the quarter.

During the first quarter of this year, the Company made investments for \$ 876 million. To this amount, it must be added the payments to the trusts of specific allocation for works for \$ 218 million.

The prospects for the evolution of passenger traffic for the year 2018 are positive due to the expected growth of the economy in general, which has a direct effect on commercial air activity, and the opening of new international routes. To this, it must be added the aforementioned commercial air policy actions, in particular the start-up of the operations of several low-cost companies and the focus on the development of international connectivity.

As regards to the execution of investments in infrastructure, the continuation of works that began in 2017 and the start of new works of various sizes at various airports in the country is scheduled. We can highlight the continuation of the works of the B terminal of Ezeiza, improvements in Aeroparque, the new terminal of Comodoro Rivadavia, the airport of El Palomar, remodeling of the terminal of Iguazú, new passenger terminal of Jujuy, among other works that as a whole, will expand the operational capacity and also the quality and experience of the passenger.

**REPORT ON REVIEW OF CONDENSED CONSOLIDATED INTERIM
FINANCIAL STATEMENTS**

To the Shareholders, Chairman and Directors of
Aeropuertos Argentina 2000 S.A.
Legal address: Suipacha 268 - Floor 12°
Autonomous City of Buenos Aires
Tax Code: 30-69617058-0

Introduction

We have reviewed the accompanying condensed consolidated interim financial statements of Aeropuertos Argentina 2000 S.A. and its subsidiaries ("the Company"), including the consolidated statement of financial position as at March 31, 2018, the consolidated statement of comprehensive income for the three-month periods ended March 31, 2018 and the consolidated statements of changes in shareholders' equity and of cash flows for the three-month period then ended and the selected explanatory notes.

The balances and other information for the year 2017 and for the interim periods are an integral part of these financial statements and, therefore, they should be considered in relation to those financial statements.

Board Responsibility

The Company's Board of Directors is responsible for the preparation and presentation of these financial statements in accordance with International Financial Reporting Standards (IFRS), adopted by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) as professional accounting standards and added by the National Securities Commission (CNV) to its regulations, as approved by the International Accounting Standard Board (IASB). Therefore, they are responsible for the preparation and presentation of the condensed consolidated interim financial statements mentioned in the first paragraph in accordance with International Accounting Standard No. 34 "Interim Financial Reporting" (IAS 34).

Scope of review

Our review was limited to the application of the procedures established in the International Standard on Review Engagements 2410, 'Review of interim financial information performed by the independent auditor of the entity', which was adopted as review standard in Argentina by Technical Pronouncement No. 33 of the FACPCE, as approved by the International Auditing and Assurance Standard Board (IAASB). A review of interim financial information consists of making inquiries to the company personnel responsible for the preparation of the information included in the condensed consolidated interim financial statements and in the performance of analytical and other review procedures. This review is substantially less in scope than an audit conducted in accordance with International Auditing Standards, and consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the consolidated statement of financial position, the consolidated statements of comprehensive income and cash flows of the Company.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the condensed consolidated interim financial statements mentioned in the first paragraph, have not been prepared, in all material respects, in accordance with International Accounting Standard (IAS) No. 34.

Emphasis of matter

Without qualified or conclusion, we draw attention to Note 3.1 to the condensed consolidated interim financial statements, which describes that the Company has restated the figures as of March 31, 2017.

Report on the compliance with current regulations

In accordance with current regulations, in connection with Aeropuertos Argentina 2000, we report that:

- a) the condensed consolidated interim financial statements of Aeropuertos Argentina 2000 S.A. have been transcribed into the “Inventory and Balance Sheet” book and, insofar as concerns our field of competence, are in compliance with the provisions of the General Corporations Law and pertinent resolutions of the National Securities Commission;

Notes to the Individual Financial Statements

At March 31, 2018 presented in comparative format

NOTE 1 – COMPANY ACTIVITIES

Aeropuertos Argentina 2000 S.A. (“AA2000” or the “Company”) was incorporated in the Autonomous City of Buenos Aires on January 28, 1998, after the consortium of companies won the national and international bid for the concession rights for the use, management and operation of the Group “A” of the Argentine National Airport System. Group “A” includes 33 airports that operate in Argentina (the “Concession”).

The Concession was granted pursuant to the concession agreement the Company entered into with the Argentine National Government on February 9, 1998, as subsequently amended and supplemented by the memorandum of agreement we entered into with the Argentine National Government on April 3, 2007 (the “Memorandum of Agreement”). The Company refer to the concession agreement as amended and supplemented by the Memorandum of Agreement as the “Concession Agreement”.

The Concession is for an initial period of 30 years through February 13, 2028. The Company may extend the term of the Concession for an additional period of up to 10 years. The Company has made a formal request to the National Airports Regulatory Organization (*Organismo Regulador Del Sistema Nacional de Aeropuertos*) (the “ORSNA”) to extend the term of the Concession for the additional 10-year period ending February 13, 2038. The Company can provide no assurance that the Argentine National Government will grant our request or on what conditions.

In addition, under the terms of the Concession Agreement, the Argentine National Government has the right to buyout the Concession as of February 13, 2018, and if such right is exercised, it is required to pay the Company a compensation.

As from July 24, 2012 The Company has become responsible for the management of the operation of Termas de Rio Hondo airport. On March 21, 2013, the National Executive Branch through Decree N° 303/2013, ratified the incorporation of the airport to the National Airport System, its inclusion into the Group “A” at December 31, 2017 is still pending.

NOTE 1 – COMPANY ACTIVITIES (Contd.)

Likewise and in order to be able to continue with the policies related to the expansion of the aviation market, the National State issued Decree No. 1092/17 on December 22, 2017 by which it incorporated the Palomar Airport, located in the Province of Buenos Aires, to the National Airport System.

In order to incorporate the said Airport into "Group A", on December 27, 2017 the National Government issued Decree No. 1107/17.

As a result, as of such date, the Company is responsible for the exploitation, administration and operation of Palomar Airport under the terms set forth in the Concession Contract approved by Decree No. 163/97 and the Adjustment Agreement Act. of the Concession Contract approved by Decree No. 1799/07.

The current note to the Separate Condensed Individual Interim Financial Statements does not reflect all the information requested in the annual financial statements, as there are no significant differences. It should be read together with the Financial Statements audited for the year ended December 31, 2017.

NOTE 2 – ACCOUNTING POLICIES

The Separate Condensed Individual Interim Financial Statements are presented in Argentine Pesos, except when specifically indicates otherwise. The Board of Directors of the Company approved these statements on May 8, 2018.

The National Securities Commission (CNV) through Technical Resolutions N° 562/09 and 576/10 has established the application of Technical Resolutions N° 26 , 29 and 43 of the Argentine Federation of Professional Council in Economic Sciences which adopts the application of IFRS (International Financial Reporting Standards) issued by the IASB (International Accounting Standards Board), for those entities under the public offering regime Law N° 17.811, whether due to capital stock or corporate bonds or because they have requested authorization to list for trading on stock exchanges.

NOTE 2 – ACCOUNTING POLICIES (Contd.)

Application of those standards is mandatory for the Company as from the fiscal year beginning on January 1 2012. Therefore, the transition date, as established in the IFRS 1 “First Time Adoption of the IFRS” was January 1, 2011.

Likewise, the Financial Statements of AA2000 have been prepared in accordance with International Standards of Financial Information and Interpretation of the CINIIF (IFRIC in English).

These accounting policies have been consistently applied to all the periods / years presented. Unless otherwise stated.

The current Separate Condensed Individual Interim Financial Statements have not been audited and should be read together with the Individual Financial Separated Statements for the year ended December 31, 2017. The results of the three month periods ended March 31, 2018 and 2017 do not necessarily reflect the proportion of the results of the Company for the full year.

1) Comparative Information

The figures at March 31, 2017 and December 31, 2017 included in these Separate Condensed Individual Interim Financial Statements for comparative purposes, was extracted from the Financial Statements of AA2000 as of that date, and timely approved by the Company Board of Directors and shareholders.

Certain figures in the financial statements corresponding to the period ended March 31, 2017 have been reclassified for the purpose of comparative presentation, in relation to income from the Strengthening Trust (\$ 74,808,468), included in the revenue item which have been reclassified to the item Other Income and Expenses, Net in the Individual Statement of Comprehensive Income. This reclassification does not affect the figures of the balance sheet.

In turn, certain transactions have been reclassified in the Cash Flow Statement that were classified in 2017 within the operating activities (Release of restricted cash and certain interests) that were reclassified to financing activities.

2) Accounting Policies

The accounting policies applied to the Separate Condensed Individual Interim Financial Statements are consistent with the Individual Financial Statements ended December 31, 2017.

3) Subsidiaries

Subsidiaries are all the entities where the Company has the power to control operating and financial policies, generally with a controlling share over 50%. At the time of determining if the Company controls an entity, the existence and the impact of potential voting rights that could be exercised or converted are taken into account. The subsidiaries are consolidated as from the date the control is transferred and excluded from the date such control ceases.

The accounting policies of subsidiaries have been modified, where necessary, to ensure the uniformity with the Company's policies.

At March 31, 2018, AA2000 has participation in the following controlled companies (hereafter the Group):

Subsidiaries (1)	Number of common shares	Participation in capital and possible votes	Book entry value at 03.31.18	Net Shareholders' equity at closing	Income for the period

4) Segment Information

The Company is managed as a single unit, considering all airports as a whole. It does not evaluate the performance of the airports on a standalone basis. Therefore, for the purposes of segment information, there is only one business segment.

The Argentine National Government granted to the Company the airports's concession of the Group "A" of the National Airports System under the basis of "cross-subsidies": i.e., the income and funds generated by some of the airports should subsidize the liabilities and investments of the remaining airports, in order for all airports to be compliant with international standards as explained below.

All airports must comply with measures of operative efficiency which are independent from the revenues and funds they generate. All works performed must follow international standards established by the respective agencies (IATA, OACI, etc.).

Revenues of AA2000 comprised non-aeronautical revenues and aeronautical revenues; the latter being the tariffs determined by the ORSNA and regulated on the basis of the review of the Financial Projection of Income and Expenses in order to verify and preserve the "equilibrium" of the variables on which it was originally based.

The investment decisions are assessed and made with the ORSNA based on the master plans of the airports considering the needs of each airport on the basis of expected passenger flow and air traffic, in the framework of the standards previously mentioned.

5) *Estimates*

The preparation of financial statements in accordance with IFRS requires the use of estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies.

In the preparation of these Financial Statements the significant areas of judgement by management in the application of the Company's accounting policies and the main areas of assumptions and estimates are consistent with those applied in the Financial Statements for the year ended December 31, 2017.

6) *Foreign currency translation*

Functional and presentation currency

Items included in the financial statements of each of the group's entities are measured using the corresponding functional currency i.e the currency of the primary economic environment in which the entity operates. The functional currency of all group entities is the Argentine peso, which is also the presentation currency of the financial statements.

The Company has evaluated and concluded that at the date of the financial statements the conditions established in the IAS 29 "Financial Reporting for Hyperinflationary Economies" are unmet in order to consider Argentina as a hyperinflationary economy. At the end of the reported period, considering the Argentine peso does not gather the characteristics to be considered as a currency from a hyperinflationary economy according to the guidelines established in the Standard and the government expectations towards the reduction of the inflation level, the current condensed financial statements have not been re expressed in constant currency.

6) Foreign currency translation (Contd.)

In the last years, certain macroeconomic variables that affect the Company business, as salaries and prices of supplies, have had important annual variations. This circumstance should be considered in the evaluation and interpretation of the financial situation and results presented by the Company in these financial statements.

These individual financial statements have been prepared under the historical cost convention.

Transactions and balances

Transactions in foreign currency are translated into the functional currency using the exchange rates prevailing at the transaction dates (or valuation where items are re-measured).

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end of the assets and liabilities denominated in foreign currency are recognized in the statement of comprehensive income.

Foreign exchange gain and losses are shown in “Finance Income” and/or “Finance Cost” of the comprehensive statement of income.

Exchange rates used are the following: buying rate for monetary assets and selling rate for monetary liabilities, applicable at year-end according to Banco Nación, and at the foreign currency exchange rate applicable at the transaction date.

7) Contingencies

The Company has contingent liabilities for litigations related to the ordinary course of business.

No significant liability is expected to arise from contingent liabilities different from the reserved ones.

8) Changes in accounting policies

a) New standards and modifications adopted by the Company

The following standards and amendments have been adopted by the Company for the first time for the three-month period ended March 31, 2018:

IFRS 9, "Financial Instruments"

The Company adopted IFRS 9 issued in July 2014, which resulted in changes in accounting policies and adjustments to the figures recognized in the Individual Financial Statements for the year ended December 31, 2017.

This standard replaces the previously issued versions and establishes new requirements for hedge accounting and a new impairment model for financial assets, applicable to annual periods beginning on or after January 1, 2018

The new impairment model requires the recognition of provisions for impairment based on the expected credit losses, instead of credit losses incurred under IAS 39.

The accounting policies were modified to comply with IFRS 9 issued by the IASB in July 2014.

IFRS 9 replaces the provisions of IAS 39 that relate to the recognition, classification and measurement of financial assets and financial liabilities; cancellations in financial instrument accounts; impairment of financial assets and hedge accounting. IFRS 9 also significantly modifies other standards related to financial instruments such as IFRS 7 Financial Instruments: Disclosures.

As permitted by the transitional provisions of IFRS 9, the Company has chosen not to change the comparative figures.

The total impact on the Company's retained earnings due to the classification and measurement of financial instruments as of January 1, 2018 is as follows:

Retained earnings as of December 31, 2018 - IAS 39	2.684.484.995
Decrease in the provision for bad debts, net	54.054.111
Retained earnings as of January 1, 2018 - IFRS 9	2.738.539.106

8) Changes in accounting policies (Contd.)

- IFRS 15 “Revenue from contracts with customers”

Management evaluated the effects of the application of the new standard and has no identified that the application of IFRS 15 may result in the identification of separate performance obligations in relation to permit holder contracts that could affect the timing of recognition of future income.

There were no other additional changes in the accounting policies of the Company based on the effective application standards as of January 1, 2018 described above.

b) New standards and amendments issued, but that do not result in effective application as of March 31, 2018 and have not been adopted by the Company

IFRS 16 “Leases”

In January 2016, the IASB issued IFRS 16 "Leases", which establishes new principles for the recognition, measurement, presentation and presentation of lease contracts, highlighting the elimination of the operational and financial classification established by IAS 17 and the adoption, in its replacement of a treatment similar to that provided to financiers under said rule, for all lease agreements. These contracts must be disclosed as leased assets (assets with a right to use) or within fixed assets at the present value of the lease payments. If the Company makes periodic payments, it must additionally recognize a financial liability that represents the obligation to make future payments for the lease. IFRS 16 does not require the lessee to recognize assets and liabilities in the case of short-term leases or leases of low-value assets. The application of these new requirements will result in an increase in lease assets and financial liabilities recognized in this type of transaction. This standard is applicable to annual periods beginning on or after January 1, 2019, allowing early application if IFRS 15 is applied.

The Company has no intention to adopt this standard in advance.

NOTE 6 – BORROWINGS (Contd.)

According to the Offering Memorandum of Negotiable Obligations, dated January 19, 2017 and later modified on January 23, 2017 the Company will use the proceeds of the offering notes in compliance with Article 36 of the Negotiable Obligations Law to (i) refinance the liabilities of the Company including (a) the total payment of negotiable obligations issued on December 22, 2010; and (b) negotiable obligations Class “A” and Class “C”, issued by the Company in Argentina on April 21, 2010, plus accrued and unpaid interest to the date of redemption and the applicable prepayment premiums as long as they have not been redeemed before issue date and maturity with the Company’s funds and (ii) the remainder will be applied to finance infrastructure works in the airports of Group A of the Company. On January 23, 2017, the negotiable obligations issued in April 2010 were redeemed in full with the Company’s own funds, so the amount equivalent to the mentioned redemption will be aimed at infrastructure works in the airports of the Company belonging to Group “A” of the National System of Airports.

On March 13, 2017 it made an early and whole redemption of the remaining value of negotiable obligations issued in December 2010 for the amount of principal of USD 157.500.000.

At December 31, 2016 the item Cash and Cash Equivalents of the statements of Financial Position included \$ 490.566.044 to guarantee the payment of negotiable obligations valid at that date and early redeemed before the end of March 31, 2017

At March 31, 2018 the reasonable value of negotiable obligations issued in February 2017 is of \$7,949,515,999. Such method of valuation is classified according to NIIF 13 as hierarchy of reasonable value Level 2 (quotation prices (not adjusted) in active markets for identical assets or liabilities).

REPORT ON REVIEW OF SEPARATE CONDENSED INDIVIDUAL INTERIM FINANCIAL STATEMENTS

To the Shareholders, Chairman and Directors of
Aeropuertos Argentina 2000 S.A.
Legal address: Suipacha 268 - Floor 12°
Autonomous City of Buenos Aires
Tax Code: 30-69617058-0

Introduction

We have reviewed the accompanying separate condensed individual interim financial statements of Aeropuertos Argentina 2000 S.A. ("the Company") including the separate statement of financial position as at March 31, 2018, the separate statement of comprehensive income for the three-month periods ended March 31, 2018 and the separate statements of changes in shareholders' equity and of cash flows for the three-month period then ended and the selected explanatory notes.

The balances and other information for the year 2017 and for its interim periods are an integral part of these financial statements and, therefore, they should be considered in relation to those statements.

Board Responsibility

The Company's Board of Directors is responsible for the preparation and presentation of the financial statements in accordance with International Financial Reporting Standards (IFRS) adopted by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) as professional accounting standards and, added by the National Securities Commission (CNV) to its regulations, as issued by the International Accounting Standard Board (IASB) and thus, is responsible for the preparation and presentation of the separate condensed individual interim financial statements mentioned in the first paragraphs, in accordance with International Accountant Standard No. 34 "Interim Financial Reporting" (IAS 34).

Scope of review

Our review was limited to the application of the procedures established in the International Standard on Review Engagements 2410, 'Review of interim financial information performed by the independent auditor of the entity', which was adopted as review standard in Argentina by Technical Pronouncement No. 33 of the FACPCE, as approved by the International Auditing and Assurance Standard Board (IAASB). A review of interim financial information consists of making inquiries to the company personnel responsible for the preparation of the information included in the separate condensed individual interim financial statements and in the performance of analytical and other review procedures. This review is substantially less in scope than an audit conducted in accordance with International Auditing Standards, and consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the separate statement of financial position, the separate statements of comprehensive income and cash flows of the Company.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the separate condensed individual interim financial statements mentioned in the first paragraphs, have not been prepared, in all material respects, in accordance with International Accounting Standard (IAS) No. 34.

Emphasis of matter

Without qualified our conclusion, we draw attention to Note 2.1 to the separate condensed individual interim financial statements, which describes that the Company has restated the figures as of March 31, 2017.

Report on the compliance with current regulations

In accordance with current regulations, in connection with Aeropuertos Argentina 2000, we report that:

- a) the separate condensed individual interim financial statements of Aeropuertos Argentina 2000 S.A. have been transcribed into the “Inventory and Balance Sheet” book and, insofar as concerns our field of competence, are in compliance with the provisions of the General Corporations Law and pertinent resolutions of the National Securities Commission;
- b) the separate condensed individual interim financial statements of Aeropuertos Argentina 2000 S.A. stem from accounting records kept, in all formal aspects in conformity with legal regulations, which maintain the security and integrity conditions based on which they were authorized by the National Securities Commission;
- c) we have read the additional information to the Notes to the separate condensed individual interim financial statements required by Section 12, Chapter III, Title IV of the Regulations of the National Securities Commission, on which, insofar as concerns our field of competence, we have no observations to make;

d) as of March 31, 2018, Aeropuertos Argentina 2000's accrued debt with the Argentine Social Security System, which stems from the accounting records, amounted to \$48,534,682, which was not yet due at that date.
