#### Passenger Traffic Overview

**Total passenger traffic** in December 2018 increased by 5.2% YoY, primarily reflecting growth of 7.4% in Argentina, 3.0% in Brazil, and 6.7% in Ecuador.

In Argentina, total passenger traffic increased 7.4% YoY, mainly driven by 15.2% growth in domestic passengers, partially offset by declines of 3.4% and 10.3% in international and transit passengers, respectively, which continues to reflect challenging macro conditions. International traffic in Argentina, however, posted an improvement from prior months as foreign tourism increased, combined with pre-sales of air travel tickets that took place before the peso devaluation along with installment sales offered by some airlines. In addition, American Airlines began operating a direct flight to Los Angeles from Ezeiza Airport, and Gol airlines started a flight to Brasilia Airport. Moreover, FlyBondi launched international routes from El Palomar to Punta del Este, Uruguay, and Asunción, Paraguay, and Chilean low-cost carrier JetSmart started operations with four international routes from Santiago de Chile and La Serena to Córdoba, Mendoza and El Palomar. Furthermore, Norwegian Air Argentina continued to open new domestic routes in the period, with daily frequencies to Bariloche.

In Brazil, passenger traffic increased 3.0% YoY, driven by 7.1% growth in domestic traffic reflecting the addition of new frequencies to existing

routes in several destinations at Brasilia Airport and easier comps at Natal Airport as traffic in 3Q17 in Natal was impacted by a reduction in frequencies while the runway was refurbished. International traffic at Brasilia Airport increased 13.9% impacted by the new traffic count methodology applied by ANAC since June 2018, which offset the traffic growth resulting from the continued good performance of daily routes to Miami and Orlando opened by Gol Airlines in November and the addition of a new direct flight to Buenos Aires during December. Based on the prior methodology, international traffic would have increased 42.5% YoY at this airport.

In Ecuador, passengers increased 6.7%, with international passenger traffic at Guayaquil Airport up 9.4%, mainly attributed to the continued good performance of Spirit Airlines. In addition, Laser Airlines started operations with three-weekly flights to Caracas, Venezuela.

In Italy, passenger traffic rose 3.5%, driven by an increase of 7.3% in Pisa Airport mainly related to the addition of frequencies by Ryanair and increased flights by Poveda to Moscow, while Florence Airport posted a decline of 3.3% as a result of adverse weather conditions, which led to several re-routed or cancelled flights.

### Cargo Volume and Aircraft Movements

**Cargo volume** declined 3.4% in December 2018 mainly as a result of a decline of 6.5% in Argentina in relation with macroeconomic conditions, partially offset by the continued recovery in Brazil, with an increase of 16.5% YoY.

**Aircraft movements** increased 3.1% in December 2018, mainly as a result of an increase of 6.6% in Argentina and 14.0% in Ecuador, partially offset by an 18.1% decline in Peru.
