1 General information and company conversion

General Information

Corporación América Airports S.A. (the “Company” or “CAAP”) is a holding company primarily engaged through its operating subsidiaries in the acquisition, development and operation of airport concessions. The Company and its operating subsidiaries are collectively referred to hereinafter as the “Group”.

The Company was formed as a private limited liability company under the laws of the Grand Duchy of Luxembourg on December 14, 2012. The Company is ultimately controlled by Southern Cone Foundation (“SCF”), a foundation, organized under the laws of the Principality of Liechtenstein. The address of its registered office is in Vaduz.

The Group currently has operations in Argentina, Brazil, Uruguay, Armenia, Italy, Ecuador and Peru.

A list of the principal Group’s subsidiaries is included in Note 2 of the Consolidated Financial Statements as of December 31, 2018.

Reverse Stock Split

On January 19, 2018, the Shareholder approved a 1-to-10.12709504 reverse stock split of its common shares, consequently decreasing the outstanding common shares from 1,500,000,000 common shares to 148,117,500 common shares (the “Reverse Stock Split”). The nominal value of USD 1.00 of each common share did not change as a result of the Reverse Stock Split. It implied a reduction of share capital of USD 1,351,883 and an increase in Non-Distributable Reserves. In accordance with the provisions of the amended and restated articles of association of the Company, the non-distributable reserve may be distributed to its shareholders, from time to time, on a *pro rata* basis.

Initial Public Offering

On February 2, 2018, CAAP submitted the final prospectus to the U.S. Securities and Exchange Commission as an initial public offering of common shares of Corporación América Airports S.A. which was declared effective by such commission. The offering was of 11,904,762 common shares with a nominal value of USD 1 and the Shareholder offered 16,666,667 common shares which were fully subscribed. As a consequence of the Initial Public Offering, the share capital of CAAP has increased to 160,022,262 shares. The initial public offering price per common share was USD 17.00. As a result, CAAP had proceeds of USD 195,601 net of underwriting discounts and commissions but before other issuing expenses.

On February 5, 2018, the Executive Committee; in accordance with (i) the provisions of the articles of associations of the Company, and (ii) the resolutions taken by the Company’s board of directors which determined and confirmed the creation and composition of the Executive Committee and also the powers delegated to it with respect of the Initial Public Offering; resolved to approve the issuance of the new shares, acknowledged having received sufficient evidence showing that the subscription price of the new shares had been paid, and the amendment of the articles of associations in respect of the new share capital of USD 160,022,262.

These condensed consolidated interim financial statements have been approved for issuance by the Company on May 21, 2019.

2 Basis of presentation and accounting policies

The principal accounting policies applied in the preparation of these Condensed Consolidated Interim Financial Statements are consistent with the Consolidated Financial Statements ended at December 31, 2018. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of presentation

These Condensed Consolidated Interim Financial Statements have been prepared in accordance with IAS 34, "Interim Financial Reporting". The accounting policies used in the preparation of these Condensed Consolidated Interim Financial Statements are consistent with those used in the audited Consolidated Financial Statements for the year ended December 31, 2018, except for changes explained in Note 2.2. These Condensed Consolidated Interim Financial Statements should be read in conjunction with the audited Consolidated Financial Statements for the year ended December 31, 2018, which have been prepared in accordance with International Financial Reporting Standards ("IFRS") of the International Accounting Standards Board (IASB) and the Interpretations of the International Financial Reporting Interpretations Committee (IFRIC).

Elimination of all material intercompany transactions and balances between the Company and the other companies and their respective subsidiaries have been made.

The preparation of Condensed Consolidated Interim Financial Statements in conformity with IFRS requires management to make certain accounting estimates and assumptions that might affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the reporting dates, and the reported amounts of revenues and expenses during the reporting years. Actual results may differ from these estimates.

In the preparation of these Condensed Consolidated Interim Financial Statements, the significant areas of judgment by management in the application of the Group's accounting policies and the main areas of assumptions and estimates are consistently as those applied in the Consolidated Financial Statements for the year ended December 31, 2018.

Assets and liabilities are classified as current if settlement is expected within 12 months.

Application of IAS 29 in financial reporting of Argentine subsidiaries and associates

IAS 29 "Financial Reporting in Hyperinflationary Economies" requires that the financial statements of entities whose functional currency is that of a hyperinflationary economy to be adjusted for the effects of changes in a suitable general price index and to be expressed in terms of the current unit of measurement at the closing date of the reporting period, regardless of whether they are based on the historical cost method or the current cost method. Accordingly, the inflation produced from the date of acquisition or from the revaluation date, as applicable, must be computed in the non-monetary items.

In order to conclude on whether an economy is categorized as hyperinflationary in the terms of IAS 29, the standard details a series of factors to be considered, including the existence of a cumulative inflation rate in three years that approximates or exceeds 100%. Considering that the inflation in Argentina has exceeded the 100% three-year cumulative inflation rate in July 2018, and that the rest of the indicators do not contradict the conclusion that Argentina should be considered a hyperinflationary economy for accounting purposes, the Group understands that there is sufficient evidence to conclude that Argentina is a hyperinflationary economy under the terms of IAS 29 as from July 1, 2018, and, accordingly, it has applied IAS 29 as from that date in the financial reporting of its subsidiaries and associates with the Argentine peso as functional currency.

The estimated price index as of March 31, 2019 was 204.34 (184.25 as of December 31, 2018) and the conversion factor derived from the indexes for the period ended March 31, 2019, was 1.11.

Comparative amounts are the figures presented as current year amounts in the relevant prior year consolidated financial statements, according to IAS 21, considering that were translated into the currency of a non- hyperinflationary economy.

2 Basis of presentation and accounting policies (Cont.)

2.1 Basis of presentation (Cont.)

Application of IAS 29 in financial reporting of Argentine subsidiaries and associates (Cont.)

The ongoing application of the re-translation of comparative amounts to closing exchange rates under IAS 21 and the inflation adjustments required by IAS 29 will lead to a difference because the rate at which the hyper-inflationary currency depreciates against a stable currency is rarely equal to the rate of inflation. The inflation adjustment and the translation of comparative amounts in the current period is included in *Other comprehensive (loss) / income for the period* line.

This re-translation changes every prior reported quarterly consolidated statement of income in U.S. dollars, as a result, the impact of quarterly inflation adjustments and quarterly translation adjustments vary the results of operation quarter to quarter until year end.

There were no changes in valuation techniques during the period, except for changes explained in Note 2.2, and there were no changes in risk management policies since the end of the year ended December 31, 2018.

2.2 Changes in the accounting policies

The group has applied the following standard for the first time for their quarter reporting period commencing January 1, 2019:

IFRS 16, "Leases"

The group has adopted IFRS 16 retrospectively from January 1, 2019, but has not restated comparatives for the 2018 reporting period, as permitted under the specific transitional provisions in the standard. The reclassifications and the adjustments arising from the new leasing rules are therefore recognized in the opening balance sheet on January 1, 2019.

(a) Adjustments recognized on adoption of IFRS 16

On adoption of IFRS 16, the group recognized lease liabilities in relation to leases which had previously been classified as 'operating leases' under the principles of IAS 17 Leases. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate as of January 1, 2019. The weighted average lessee's incremental borrowing rate applied to the lease liabilities on January 1, 2019 was 5.2%.

For leases previously classified as finance leases the entity recognized the carrying amount of the lease asset and lease liability immediately before transition as the carrying amount of the right of use asset and the lease liability at the date of initial application. The measurement principles of IFRS 16 are only applied after that date.

	Lease liabilities
Operating lease commitments as at December 31, 2018	14,167
Discounted using lessee's incremental borrowing rate	(2,204)
Operating lease commitments discounted at the date of initial application	11,963
Add: finance lease liabilities recognized as at December 31, 2018	1,715
(Less): short-term leases recognized on a straight-line basis as expense	(59)
(Less): low-value leases recognized on a straight-line basis as expense	(70)
Lease liability recognized as at January 1, 2019	13,549
Of which are:	
Current lease liabilities	4,942
Non-current lease liabilities	8,607
	13,549

2 Basis of presentation and accounting policies (Cont.)

2.2 Changes in the accounting policies (Cont.)

Right-of use assets were measured at the amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognized in the balance sheet as at December 31, 2018. There were no onerous lease contracts that would have required an adjustment to the right-of-use assets at the date of initial application.

The recognized right-of-use assets as at January 1, 2019 relate to the following types of assets:

	<u>At January 1, 2019</u>
Right-of-use asset	
Land, building and improvements	10,103
Plant and production equipment	1,224
Vehicles, furniture and fixtures	519
	<u>11,846</u>

The change in accounting policy affected the following items in the balance sheet on January 1, 2019:

- right-of-use assets – increase by USD 11,846
- prepayments – decrease by USD 12
- borrowings – decrease by USD 1,715
- lease liabilities – increase by USD 13,549

There was no impact on retained earnings on January 1, 2019.

(b) Practical expedients applied

In applying IFRS 16 for the first time, the group has used the following practical expedients permitted by the standard:

- reliance on previous assessments on whether leases are onerous
- the accounting for operating leases with a remaining lease term of less than 12 months as at January 1, 2019 as short-term leases
- the exclusion of initial direct costs for the measurement of the right-of-use asset at the date of initial application, and
- the use of hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

(c) The group's leasing activities and how these are accounted for

The group as a lessee

The group acts as a lessee renting various offices, equipment and cars.

Until the 2018 financial year, leases of property, plant and equipment were classified as either finance or operating leases. Payments made under operating leases (net of any incentives received from the lessor) were charged to profit or loss on a straight-line basis over the period of the lease.

From January 1, 2019, leases are recognized as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the group. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

2 Basis of presentation and accounting policies (Cont.)

2.2 Changes in the accounting policies (Cont.)

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable
- variable lease payment that are based on an index or a rate
- amounts expected to be payable by the lessee under residual value guarantees
- the exercise price of a purchase option if the lessee is reasonably certain to exercise that option, and
- payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be determined, the lessee's incremental borrowing rate is used, being the rate that the lessee would have to pay to borrow the funds necessary to obtain an asset of similar value in a similar economic environment with similar terms and conditions.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs, and
- restoration costs.

Payments associated with short-term leases and leases of low-value assets are recognized on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less.

The group as a lessor

The group acts as a lessor regarding leases and sub-concession of spaces with third parties at its airports facilities.

The Group's accounting policy under IFRS 16 has not changed from the comparative period. As a lessor the Group classifies its leases as either operating or finance leases. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of the underlying asset, and classified as an operating lease if it does not.

Other standards and amendments

Several other amendments and interpretations apply for the first time in 2019 but do not have an impact on the interim condensed consolidated financial statements of the Group.

New and amended standards not yet adopted for CAAP.

Certain new accounting standards and interpretations have been published that are not mandatory for March 31, 2019 reporting periods and have not been early adopted by the group. The group's management is currently evaluating the potential impact of the new standards and interpretations that are set out below.

Other standards and interpretations non-significant for the Company's financial statements:

- IFRS 17 – Insurance contracts
- Amendments to IAS 1 and 8 – Definition of Material. These amendments must be applied prospectively for annual periods beginning on or after January 1, 2020.
- Amendments to IFRS 3 – Definition of a Business. Entities are required to apply the amendments to transactions for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 1, 2020.
- Amendments to references to the conceptual framework in IFRS standards (issued in March 2018). These amendments must be applied as from January 1, 2020.

There are no other standards that are not yet effective and that would be expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

3 Segment information

Operating segments are components of an enterprise where separate financial information is available that is evaluated regularly by the chief operating decision maker, or decision-making group, in deciding how to allocate resources and in assessing performance. The Group's chief operating decision maker is its Board of Directors. The Group's operating segments are managed separately because each operating segment represents a strategic business unit providing airport and non-airport services ("others") to clients in different countries. The Group's reportable operating segments are the seven countries in which the Group currently operates, which are Argentina, Brazil, Uruguay, Armenia, Ecuador, Italy and Peru.

Within each reportable segment, the Group develops and operates airport concessions ("Airports") and provides other services not directly related to airport concessions ("Others").

Assets, liabilities and results of sub-holding and/or holding companies are not allocated and are reported within the "Unallocated" column. This column also includes head office and group services.

The elimination of any intersegment revenues and other significant intercompany operations are included in the "Intersegment Adjustments" column.

The information regarding the Company's reportable operating segments is consistent with the information presented in Notes 2.V and 4 included in our audited Consolidated Financial Statements for the year ended December 31, 2018 and should be read in conjunction with them.

The performance of each reportable segment is measured by its adjusted EBITDA, defined, with respect to each segment, as net income before financial income, financial loss, income tax expense, depreciation and amortization for such segment. The Adjusted EBITDA for the Brazil segment does not exclude the amortization of the intangible asset related to the fee payable to the Brazilian government for the operation of the Brazilian airport concessions.

Effective April 1, 2018, the CODM revised the current segment reporting to also include another metric of performance. In addition, the CODM considers each reportable segment's Adjusted EBITDA before Construction Services margin as a relevant performance measure. Prior periods information has been revised to conform to the current period presentation.

Adjusted EBITDA excluding Construction Services is defined, with respect to each segment, as net income before construction services revenue, financial income, construction services cost, financial loss, income tax expense, depreciation and amortization for such segment. The Adjusted EBITDA excluding construction services revenue and construction services cost for the Brazil segment does not exclude the amortization of the intangible asset related to the fee payable to the Brazilian government for the operation of the Brazilian airport concessions.

12 Borrowings (Cont.)

The Credit Facility Agreement between Inframérica Concessionária do Aeroporto de São Gonçalo do Amarante S.A. (“ICASGA”) and the Banco Nacional do Desenvolvimento Economico e Social (“BNDES”) pursuant to which BNDES provided a loan to Inframérica Concessionária do Aeroporto de São Gonçalo do Amarante S.A in November 2012, in an aggregate principal amount of R\$ 329.3 million (USD 139.5 million) to finance the construction of the Natal Airport (issued in nine tranches with varying interest rates and maturity dates), is secured by the pledge of the shares of Inframérica Concessionária do Aeroporto de São Gonçalo do Amarante S.A, together with any dividends and distributions in connection therewith, as well as the fiduciary assignment of rights arising from the Natal Airport concession agreement and certain letters of guarantees issued by indirect shareholders and affiliates of Inframérica Concessionária do Aeroporto de São Gonçalo do Amarante S.A. for an amount of USD 6.1 million which was released during 2018. It also establishes a required pre-authorization by BNDES on payments of Inframérica Concessionária do Aeroporto de São Gonçalo do Amarante S.A. dividends if exceeding 25% of net profits.

Further, Inframérica Concessionária do Aeroporto de Brasília (“ICAB”) also entered into credit facility arrangements with BNDES and Caixa Economica Federal (“Caixa”) for an aggregate principal amount of R\$ 841 million (USD 356.4 million) in February 2014, which are secured by the pledge of Inframérica Concessionária do Aeroporto de Brasília and Inframérica Participações S.A. shares, the fiduciary assignment of rights arising from the Brasília airport concession agreement and letters of guarantee issued by indirect shareholders and affiliates of Inframérica Concessionária do Aeroporto de Brasília. It also establishes under certain circumstances a required pre-authorization by BNDES and Caixa on payments of Inframérica Concessionária do Aeroporto de Brasília dividends if exceeding 25% of net profits and compliance of certain financial ratios.

In December 2017, ICAB and ICASGA entered into amendments and extension agreements with BNDES with respect to their loans.

In March 2018, ICASGA concluded its renegotiation with BNDES. The terms of the renegotiation include the early repayment of a large part of the debt and rescheduling of current maturities.

On March 14, 2018 BNDES has approved an amendment and extension of the loan agreements with ICAB that involves extending the final maturity and the interest-only payment terms of such loans for two years, and providing an interest capitalization period for 50% of the interest due for two years. In addition, such agreements increased the size of the credit facility commitments by R\$ 300 million (USD 92.9 million).

In connection with such amendments and extension agreements, ACI Airports S.à.r.l. and CAAP have agreed not to create any encumbrances on their shares of Inframerica, and not to sell, acquire, merge or spin-off assets or undertake any other action that results or that may result in a change in the current corporate structure of Inframerica or any change of control in Inframerica, without the prior consent of BNDES. ACI Airports S.à.r.l. has agreed not to undertake any change of control in CAAP without the prior consent of BNDES. In addition, ACI Airports S.à.r.l. has agreed to maintain a minimum credit rating of at least B- (the “Minimum Rating”) or a stand-alone rating (without including the sovereign rating) of at least BB+. The amendment and extension agreements also require additional security equivalent to the amount of twenty-four months of debt service for at least a two-year period (in the form of a bank guaranty, letter of credit, guaranty insurance or other acceptable modalities of guarantee), if the Minimum Rating is not maintained for any annual testing period.

In March, 2018, ICAB repaid the outstanding amount of R\$ 274.4 million (USD 83 million) with CAIXA.

On December 14, 2017, ICAB entered into a banking letter of credit with Banco Citibank S.A. (the “Citibank Credit Agreement”) in the aggregate principal amount of R\$ 48.0 million (USD 14.5 million). The loan under the Citibank Credit Agreement matured on March 14, 2018. Such loan was unsecured. The obligations under the Citibank Credit Agreement were absolutely and unconditionally guaranteed by ACI Airports S.à.r.l.

On December 20, 2017, under the terms of the Banco Santander Bridge Loan Facility, ICAB issued a promissory note in the aggregate principal amount of R\$ 300.0 million (USD 90.7 million), which matured on June 18, 2018. Loans under the Banco Santander Bridge Loan Facility were fully secured by (i) a cash deposit made by CAAP under a time deposit pledge agreement entered on December 19, 2017 between CAAP and Banco Santander, in the amount of R\$ 300.0 million (USD 90.7 million). Such loans mature in 180 days as of the closing date thereunder; and (ii) a fiduciary assignment of ICAB's account at Banco Santander where the funds from BNDES financings should be deposited. The Banco Santander Bridge Loan Facility was also guaranteed by Inframérica. The loans under the Banco Santander Bridge Loan Facility mature in 180 days.

On March 14, 2018, ICAB has repaid the credit facilities provided by Banco Santander Bridge and the Citibank for a total amount of R\$ 348 million (approximately USD 106.6) with the proceeds of the loan given by the BNDES.

As a result of this operation, the guarantee deposit held by CAAP was released (approximately USD 92.9 million).

On December 19, 2017, ICAB entered into a short-term banking letter of credit with Banco Pine S.A. (the "Banco Pine Credit Agreement") in the aggregate principal amount of R\$ 32.0 million (USD 9.7 million). Obligations under the Banco Pine Credit Agreement were absolutely and unconditionally guaranteed by CAAP. The loan under the "Banco Pine Credit Agreement" matured on January 2018; at that date, ICAB made an amendment to the loan maturity from January to December 2018. On December 17, 2018, ICAB loan was cancelled.

On December 15, 2015 Armenia International Airports C.J.S.C. entered into a senior secured dual-currency facility agreement with Credit Suisse AG (and other banks) for a principal amount up to USD 160 million, which is secured by: (a) the collateral assignment of all present and future rights arising from the Armenian Concession Agreement and other related agreement, a pledge over all present and future cash collateral bank accounts, a pledge over certain movable and immoveable assets related to the Zvartnots Airport and the pledge of Armenia International Airports C.J.S.C. shares.

According to the loan agreement Armenia International Airports C.J.S.C. has restrictions to distribution of dividends, has to maintain the following ratios at a certain level: debt to EBITDA, Debt service coverage and adjusted debt service coverage ratio. According to this agreement, the analysis of the accomplished of these ratios must be made as of June 30 and December 31.

15 Contingencies, commitments and restrictions on the distribution of profits

a. Contingencies

CAAP and its subsidiaries are, from time to time, subject to various claims, lawsuits and other legal proceedings, including customer claims, in which third parties are seeking payment for alleged damages, reimbursement for losses or indemnity. Some of these claims, lawsuits and other legal proceedings are subject to substantial uncertainties. Accordingly, the potential liability with respect to such claims, lawsuits and other legal proceedings cannot be estimated with certainty. Management, with the assistance of legal counsel, periodically reviews the status of each significant matter and assesses potential financial exposure. If a potential loss from a claim, lawsuit or proceeding is considered probable and the amount can be reasonably estimated, a provision is recorded. Accruals for loss contingencies reflect a reasonable estimate of the losses to be incurred based on information available to management as of the date of preparation of the financial statements, and take into consideration the Group's litigation and settlement strategies.

The Company believes that the aggregate provisions recorded for losses in these financial statements, are adequate based upon currently available information.

There are no other lawsuits or legal proceedings different from the ones included in the Consolidated Financial Statements for the year ended December 31, 2018.

b. Commitments

Argentine Concession Agreement

AA2000 has set up a surety bond as guarantee for concession contract fulfilment. During March of every year, the amount of the surety bond is adjusted considering the variation of the U.S. dollar and the International Aerospace Use Rate. As of March 31, 2019, this guarantee amounts to AR\$ 1,124.9 million (AR\$ 528.9 million as of December 31, 2018).

Toscana Aeroporti S.p.A. expansion plan

On January 26, 2019, Toscana Aeroporti presented the expansion plan for the Pisa Airport terminal and the related flight infrastructures included in the 2018-2028 Master Plan, i.e., the program of works regarding the whole infrastructure system within the Pisa Airport, including the secondary runway and the aprons, as well as the project for creating an aircraft maintenance hub.

On February 6, 2019, a favorable opinion was obtained regarding the compliance of the works performed in connection with the urban planning. Upon this opinion, the administrative procedure (Conference of Services) related to the Master Plan 2014-2029 of the Florence airport, which calls for the construction of a new 2,400-meter runway and a new terminal, was closed. Pursuant to the regulations governing this administrative procedure, as well as ENAC's regulations concerning the environmental and urban compatibility procedures relating to airport development plans, the Italian Ministry of Infrastructures and Transport will then issue the formal closure of the administrative procedure. Once this administrative procedure is closed, ENAC will have to issue its formal approval of the development plan concerning the Florence Airport.

Refer to Note 19 for subsequent events related to Toscana Aeroporti commitments.

International Airport C/C Carlos A. Curbelo (Laguna del Sauce) – Punta del Este extension

On March 28, 2019, Resolution 1351/2019 was issued by the Ministry of Defense, which approved the amendment of the Punta del Este Concession Agreement, extending its term to March 31, 2033. This extension is subject to the execution of the Amendment to the Punta del Este Concession Agreement.

There are no new commitments or significant changes related to the concession agreements in the current period from the ones included in the Consolidated Financial Statements for the year ended December 31, 2018, except for the abovementioned.
