(1) Note that preliminary passenger traffic figures for 2019, as well as January 2020 for Ezeiza Airport, in Argentina, were adjusted to include additional inbound passengers not accounted for in the initial count, for an average of approximately 5% of total passenger traffic at Ezeiza Airport and 1% of total traffic at CAAP, during that period. Importantly, inbound traffic does not affect revenues, as tariffs are applicable on departure passengers.

(2) Preliminary data on 750 flights in August, 873 flights in September, 547 in October, 423 in November, 280 in December 2019, as well as 1,256 flights in January 2020 at Brasilia Airport, due to delays in the submission of information by third parties.

(3) Cargo volumes in Uruguay were rectified from January 2019 to June 2020, to reflect all cargo passing through the cargo terminal, instead of air cargo only.

Total passenger traffic against 2019 declined 96.4%, while international and domestic passenger traffic dropped 98.7% and 90.2%, respectively.

In Brazil, total passenger traffic declined 39.2% YoY.
