Passenger Traffic Overview

Total passenger traffic declined 8.9% compared to the same month of 2023, or 6.7% when adjusting for the discontinuation of the Natal airport. Domestic passenger traffic was down 20.3% year-over-year (YoY), or 17.0% when excluding Natal, mainly impacted by weaker performances in Argentina and, to a lesser extent, Ecuador. International traffic was up 9.4%, mainly driven by Argentina, Italy and Uruguay.

In **Argentina**, total passenger traffic declined 14.1% YoY, driven by weaker performance in domestic traffic, which was down by 22.3% YoY. Domestic traffic, which last year benefited from incentives provided by a government program called 'Previjaje' to boost domestic tourism, continued to be impacted by some flight cancellations by Aerolíneas Argentinas and Flybondi, in addition to the prevailing recession in the country. However, some tourist destinations, such as Bariloche and Jujuy, experienced sequential improvements compared to the previous month. International passenger traffic continued to perform well, increasing by 12.1% YoY. During June, Avianca inaugurated a new route from Ezeiza to Medellin, and ITA increased the frequency of its route from Ezeiza to Rome.

In **Italy**, passenger traffic grew by 15.2% compared to the same month in 2023. International passenger traffic, which accounted for over 80% of the total traffic, increased by 17.4% YoY, with strong performances at both Pisa and Florence airports. Domestic passenger traffic increased by 6.9% YoY, driven by a 12.6% increase at Pisa airport which was partially offset by a decline of 5.6% at Florence airport.

In **Brazil**, total passenger traffic decreased by 14.9% YoY, or by 4.4% YoY when adjusting for the discontinuation of Natal Airport. Domestic traffic, which accounted for almost 60% of the total traffic, was down 21.0% YoY, or 4.9% when excluding Natal, while transit passengers were down 5.6% YoY. Traffic in Brazil remained heavily impacted by financial and aircraft constraints in some of the local airlines, causing a lack of supply. As a reminder, following the friendly termination process concluded in February 2024, CAAP no longer operates Natal Airport, effective February 19, 2024. Therefore, statistics for Natal are available up to February 18, 2024.

In **Uruguay**, total passenger traffic, predominantly international, continued its recovery and increased by a strong 21.1% YoY. JetSMART Airlines inaugurated a new route between Montevideo and Buenos Aires with two daily frequencies, which started operating on May 29, positively impacting June traffic.

In **Ecuador**, passenger traffic decreased by 6.6% YoY as the increase in international traffic was more than offset by weak performance in domestic traffic. International passenger traffic increased by 4.7% YoY, while domestic traffic decreased by 15.7% YoY, mainly driven by the exit of the local airline Equair and national insecurity issues.

In **Armenia**, passenger traffic decreased by 4.8% YoY, following a strong recovery experienced in 2023, which benefited from the introduction of new airlines, along with a higher number of flight frequencies.

Cargo Volume and Aircraft Movements

Cargo volume increased by 4.3% compared to the same month in 2023, with positive YoY contributions from Argentina, Ecuador, Brazil and, to a lesser extent, Armenia, which were more than offset by negative YoY variances in Uruguay and Italy. Argentina, Ecuador, and Brazil accounted for 80% of the total volume and experienced YoY increases of 4.7%, 25.8%, and 4.6%, respectively.

Aircraft movements decreased by 10.5% YoY, with all countries of operation experiencing YoY declines except for Italy, where aircraft movements increased by 6.1% YoY. Argentina, Brazil, and Italy accounted for more than 80% of total aircraft movements in June.
