Non-IFRS Reconciliation

"Adjusted EBITDA" is a non-IFRS financial measure. Adjusted EBITDA is presented because it allows for the more effective evaluation of the Company's operating performance and results of operations from period to period without regard to financing methods or capital structure. Adjusted EBITDA should not be considered as an alternative to, or more meaningful than, combined consolidated net income for the year as determined in accordance with IFRS or as an indicator of operating performance from continuing operations. Below is a reconciliation of Income from Continuing Operations to Adjusted EBITDA for the periods shown below.

2 Deep Operating Know-How Driving a Successful Business Model

Airlines and Routes

- Continuous evaluation of new routes and new frequencies
- Maintain close contacts and relationships with major airlines
- Proper coordination among airports with common routes
- Seek to obtain other sources of revenues from airlines (e.g.: cargo facilities, maintenance centers)

Commercial Revenues

- Established long standing relationships with key commercial tenants (Dufry, JCD, IMC)
- Continuous evaluation of the mix of stores (category, retail vs food & beverage, land side vs airside) to maximize revenues
- Analysis of potential new developments and expansions of new commercial areas to increase offering throughout several airports
- Constant evaluation to increase other sources of revenues such as advertising, VIP lounges, car parking, real state, hotels, among others

Experienced Government Affairs

- Track record of negotiating, acquiring and renewing concessions across geographies
- Long-standing relationships with governments and regulatory authorities
- Working together to develop and maintain concession agreements
- Partnerships that create opportunities for concession renewals

Operations Optimization

- Work closely with airlines to reduce MCT and time-on-the-ground
- Ensure facilities provide flexibility and capabilities to meet airline demands (e.g.: cargo, catering, training facilities)

Efficient Capital Investment Planning

- Detailed analysis of airport capacity needs to determine optimal terminal and taxi-way areas
- Constant evaluation of expansion opportunities and requirements due to passenger growth
- Permanent evaluation of scheduled maintenance investment requirements (e.g.: runway, terminal, etc.)
- Unique know-how of in-house team experts in design and execution of new projects
